Proportional Reasoning
An essential foundation for numeracy
Numeracy Teacher Conference
For Teachers Primary - Year 9

Keynotes

Professor Merrilyn Goos
Numeracy for the 21st Century

Associate Professor Shelley Dole
Locating proportional reasoning in the Australian Curriculum: Mathematics

Dr Annette Hilton
Research on students’ proportional reasoning capabilities

Dr Geoff Hilton
Research on students’ proportional reasoning capabilities

Showcasing proportional reasoning in the classroom
Voices from the field: Classroom teachers share their practices in enhancing Proportional Reasoning in the classroom
Practical ideas: multi-age Proportional Reasoning tasks and ideas for the classroom

Saturday, 16 February, 2013
1pm - 7pm
Cocktail party from 5:30pm
The University of Queensland

Cost: $60*
Contact: Shelley Dole s.dole@uq.edu.au
Register at: proportionalreasoning.weebly.com/registration.html

*Conference Registration Costs
All participants will be provided with resources and materials developed from this project over the three years. This information will be contained on a memory stick (USB) for easy annotation and adaptation. Participants will be provided with a printed program that includes an overview of the workshops and keynotes. Registration also covers costs of catering for afternoon tea, refreshments during the program, and the cocktail party, including alcoholic drinks, as well as the USB, snacks, water, room hire and equipment hire.
